

WOULD YOU WELCOME US INTO YOUR HOME?

Perhaps you would, if you knew we understand that home means so much more to you than the physical structure in which you reside...

If you knew we valued your preference for staying in your own place or keeping your loved one in theirs...

If you knew the reason we feel good when we see our families at the end of the day is because we've done everything in our power to take care of yours.

TESTIMONIALS

” I am very satisfied with my services and my caregiver is great. My requests are always taken care of without a single hesitation. Neighborly Home Care is wonderful. I couldn't be happier.

” I just wanted to tell you how grateful we are that Neighborly Home Care stepped in & took over taking care of my Dad when we really needed it, no questions asked. Our caregiver has become part of the family and we know we can depend on her being there every day & taking great care of my Dad. He misses her when she's not there!

A SPECIAL NOTE FROM ROD RHEN, PRESIDENT & FOUNDER

One of the only photographs I have of me next to my dad's father is in a nursing home shortly before he died at the age of 57. When I look at the picture, it brings to mind very distinct memories of those last moments with my grandfather and my first experiences in a nursing home. I would say none of those memories would ever choose to pair the word "home" to my descriptions of those visits.

This experience strongly influenced my decision to start a home care organization, particularly an organization that would make quality home care within financial reach for many families.
